Comments:	Each row represents one adverse event used in the manuscript or one row per patient if no adverse event of interest was experienced. These data provide specific incidence of adverse events of interest to recreate Table 3 found in the manuscript. Blanks or period '.' represent missing data or not applicable for analyses. Data can be used to approximate published study findings, but exact reproduction of previous manuscripts may not be possible in some cases (e.g., when data must be modified for de-identification purposes or have undergone further data cleaning).
