

Study Number:	ARET0331			
NCT#:	NCT00079417			
Dataset #:	D3			
PMID#:	28019092			
Subgroup (if applicable)	Patient level dataset			
Comments	<p>Only patients who are considered eligible and received protocol therapy are represented in the dataset. These are patients with analysiset = 1 in the dataset NCT00079417-D1. For each patient, ophthalmological response after cycle 1 and at the end of therapy are presented in the relevant column. The data presented in the second paragraph of Section 3.2 can be derived from the noted dataset.</p> <p>Only patients who are contributed to the analysis, that is, those with analysiset = 1 in the dataset NCT00079417-D1-Dataset.CSV, are represented in the dataset. For each patient, ophthalmological response after 1 cycle and at the end of therapy are presented in the relevant column. The data presented in the second paragraph of Section 3.2 can be derived from the noted dataset.</p>			
Variable number	Variable name	Variable type	Variable label	Note
1	usi	character	Patient identifier	
2	eye	character	Affected eye	
3	cycle_1_response	character	Ophthalmological response at the end of cycle 1	
4	end_of_therapy_response	character	Ophthalmological response at the end of therapy
