Data as of: February 26, 2019

Dataset ID: NCT00108745-D3: This file contains the maximum grade of adverse events (AEs) by organ system from trial NCT00108745 presented in 35759733. NCT00108745-D1 contains patient characteristics and outcome data. NCT00108745-D2 contains QOL data. NCT00108745-D4 contains adverse event data by preferred term.

These data can be used to approximate published study findings, but exact reproduction of previous manuscripts may not be possible in some cases (e.g. when data must be modified for de-identification purposes or have undergone further data cleaning).
