

This data submission, NCT00433511-D6, contains the data used to generate the results in PubMed ID PMID: 24584876; PMCID: PMC4334112, a non-primary publication from trial NCT00433511.

Data from this trial's primary publication is found in NCT00433511-D1 and NCT00433511-D2. Data that are identical to those presented in NCT00433511-D1 are not duplicated here in this submission for NCT00433511-D6.

This dictionary file is for dataset: NCT00433511-D6-Dataset.csv.

Note Coding: 9999=not applicable

Note General: Data provided here are able to be used to approximate published study findings, but exact reproduction of previous manuscripts may not be possible in some cases (e.g., when data must be modified for de-identification purposes or have undergone further data cleaning). Example for this dataset includes racecat. Racecat variable in this submission for this PMCID: PMC4334112, replicates that publication. Following the publication of this PMCID: PMC4334112, further data cleaning was performed for the race variable which was ultimately used in this trial's primary publication (NCT00433511) years later.

Variable name	Variable Description	Coding of categorical variables
protocol_number	Protocol Number	
groupuid	Unique patient id (blinded)	
bmi_step1	BMI at baseline (pre-treatment) in parent trial NCT00433511	
racecat	Indicator variable for race	0=other
		1=white
txbev	Indicator variable for 'Assigned bevacizumab containing arm in NCT00433511-D1?'	0=no
		1=yes
tamuse	Indicator variable for tamoxifen use?	0=no
		1=yes
cra12	Chemotherapy-related amenorrhea at 12 months post randomization to parent trial NCT00433511	0=no
		1=yes
cra18	Chemotherapy-related amenorrhea at 18 months post randomization to parent trial NCT00433511.	0=no
		1=yes
