Dictionary for dataset NCT00980460-D2-Dataset.csv

Dataset NCT00980460-D2-Dataset.csv provides data on the toxicities of interest observed across all cycles (Table 4; sentences 1 and 3 of the "Toxicity" subsection). Only patients who are contributed to the analysis, that is, those with analysiset = 1, are represented in the dataset. For each patient, only cycles during which the patient was on protocol therapy are represented in the dataset.

For various reasons, data may contain slight discrepancies from that reported in the publication. Also, errors were noted in the publication.

variable number (column designator)	variable name	variable type	variable label	note
1 (A)	usi	character	Patient identifier	
2 (B)	cycle	character	Treatment cycle	
3 (C)	tox_febrile	character	Febrile neutropenia reported during the particular treatment cycle	
4 (D)	tox_infection	character	Infection reported during the particular treatment cycle	
5 (E)	tox_diarrhea	character	Diarrhea reported during the particular treatment cycle	
6 (F)	tox_vomiting	character	Vomiting reported during the particular treatment cycle	
7 (G)	tox_mucositis	character	Mucositis oral reported during the particular treatment cycle	
8 (H)	tox_anorexia	character	Anorexia reported during the particular treatment cycle	
9 (I)	tox_cardiac	character	Cardiac toxicity reported during the particular treatment cycle	
10 (J)	tox_ototoxicity	character	Hearing impairment reported during the particular treatment cycle
