Study Number:	ANBL0931			
NCT #:	NCT01041638			
Dataset #:	D1

Comments:	There is one row for each patient enrolled on ANBL0931. The following variables are used as a flag: age12, figure3bflag, efscens, scens, report_pd1_ANBL0931, report_pd2_ANBL0931, report_pd3_ANBL0931, report_pd4_ANBL0931, report_pd5_ANBL0931, report_pd6_ANBL0931. Missing data is indicated as missing, and as such, not applicable/not used in the analysis of that variable. Data can be used to approximate published study findings, but exact reproduction of previous manuscripts may not be possible in some cases (e.g., when data must be modified for de-identification purposes or have undergone further data cleaning).
