

NRG Oncology/RTOG-1010 Data Dictionary for NCT01196390-D3-Dataset.csv

Note #1:

Data can be used to approximate published study findings, but exact reproduction of previous manuscripts may not be possible in some cases (e.g., when data must be modified for de-identification purposes or have undergone further data cleaning).

Note #2:

Adverse events were scored with CTCAE version 4.

Note #3:

This dataset is limited to grade 1-5 treatment-related serious adverse events. The denominator comes from the companion dataset NCT01196390-D1-Dataset.csv (*consort_tx=1,2,3,4,5,6,7,8* and *include_in_analysis=2*).
